SITUATION SUMMARY

Summerset Apartments Incident, Fresno, Fresno County

There was a loss of natural gas to the Summerset Apartment complex near Fresno Street and Clinton in the City of Fresno. The complex has 220 units and houses 1,500 – 1,800 residents who are primarily southeast Asian refugees – about 25 of the units are Section 8. The complex has a private gas distribution system that has once supply point from PG&E. About 10 days ago the natural gas was turned off to make repairs. On Friday, 11/20/15, the City became aware of the complexity of the repairs needed and confirmed that large portions of the gas lines will not hold pressure. The residents rely on gas for heat, hot water and drying clothes. Repairs are estimated to take 3 weeks. Long-term relocation is being discussed, but a decision was made to house in-place for the next few days and provide support to the residents. The first priority is to ensure life-safety issues are addressed. The concern is residents will bring in portable gas appliances. The City Fire Department will have a 24 hour fire watch onsite until all detectors are installed.

- On 11/24/15, Pacific Gas And Electric (PGE) donated \$25,000 to the residents for food and a private resident donated \$5,000.00
- On 11/24/15, the City of Fresno determined that a shelter will not be needed.
- The City is in the leadership role with Red Cross serving as technical assistance, support and convening of necessary partners to support. County OES is not planning to activate at this time. A Cal OES ESC deployed to the ICP and demobilized as of 1800 hours on 11/24/15.
- Red Cross preparedness team, city fire and translators have installed smoke detectors in 129 units.
- Fresno Interdenominational Refugee Ministries (FIRM) is a local partner, with facilities adjacent to the apartment complex, that ARC has positioned in a lead role for feeding. ARC has been supporting this partner with food and staff and is looking to local churches to assist as well.
- ARC has contacted Southern Baptist for a kitchen and a shower unit. Southern Baptist will train FIRM on how to run the kitchen and cook culturally appropriate meals. ARC has a local partner that will help develop a suitable menu. The Southern Baptist shower units are not ADA Compliant, the city is in the process of locating ADA compliant shower facilities.
- The City of Fresno is providing school buses service to residents to shuttle them to the High School for showers and that will continue through Today. A mobile shower unit is expected to arrive today 11/26/15.
- Currently, ARC believes approximately 10 medically sensitive individuals have been identified. Department of Public Health (DPH) has been asked to identify newborns or others with health issues.
- Residents speak various dialects of Hmong, Vietnamese, Cambodian, and Laotian. DPH has offered to support the project with translators and will reach out to Behavioral Health and Social Services to see if they have resources.
- On 11/25/15 at 1722 hours the California State Warning Center (CSWC) received two unsigned Resolutions from the City of Fresno declaring the existence of a local emergency due to an inoperable natural gas line at 2103 N. Angus Street, Fresno, California. There are no requests for State assistance.

Cal EOC Incident - 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- The latest Drought Task Force update dated 11/25/15 is attached.

Weather of Concern

- Cold temperatures can be expected for North Bay Valley locations tonight and Friday night. Widespread lows of 26 to 32 degrees are forecast. Temperatures will slowly moderate next week.
- There will be a risk of minor coastal flooding through Thursday due to a combination of unusually high tides and strong onshore winds over the coastal waters. The highest high tides are expected during the morning hours Thursday, rising to 7.8 feet at Santa Monica, 7.4 feet at Santa Barbara Harbor, and 7.3 feet at Port San Luis. Meanwhile, strong onshore winds will affect the coastal waters, helping to increase water levels near-shore and increasing currents along area beaches.

Day 5-7 Weather Hazards Valid: 0800 Mon – 0800 Thu

Days 1-3 Precipitation Forecast

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Dry weather and unseasonably cold temperatures will persist through the weekend.

Medford Weather:

High pressure is developing to our north over southwest Canada and a cut off low over the Great Basin will result in a cold east to northeast flow of continental air into Northern California late this week into the weekend. We are not expecting any precipitation today through Sunday since there will be little change in the pattern aloft just dry, cold weather with some late night or early morning freezing fog/low clouds over the west side valleys.

Reno Weather:

Cold area of low pressure will remain nearly stationary over the great basin region the next several days. This will keep temperatures well below normal with periods of light snow showers possible. Any additional accumulation will be light, but periodic travel impacts in the sierra remain possible through Saturday.

San Francisco Weather:

Dry and cool weather can be expected through the weekend. Temperatures will start to moderate by next work week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Cool but mainly dry conditions setting up for the remainder of the week. Uncertainty in the forecast next week with some models showing unsettled weather and others are not.

Hanford Weather:

A storm system will remain anchored over the great basin through the holiday weekend and bring little more than isolated snow showers to the higher elevations of the sierra. Otherwise dry weather will prevail across the Central California interior through the weekend with patchy late night and morning frost and fog in the San Joaquin valley. Temperatures will average slightly below normal through the period.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A cold upper level low pressure will continue to spin across the great basin through Saturday keeping temperatures below normal across the region. A weak upper ridge should bring a bit of warming Sunday and Monday. An upper trough could bring showers to northern areas Monday night or Tuesday then weak upper ridging should allow for some warming on Wednesday.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties: A cold and nearly stationary low pressure system over the great basin will bring cool weather through the thanksgiving holiday weekend. There will also be a few periods of mostly light showers through Friday evening, mainly for San Diego County becoming gradually warmer early next week.

Southeast California Weather:

A cool pacific weather system will settle into the Western United States for the remainder of the week bringing below normal temperatures, occasionally breezy conditions and a bit more cloud cover. The slightly below normal temperatures will persist into early next week, though skies will clear through the weekend. Regardless, weather and traveling conditions for the long holiday weekend will remain favorable.

CAL OES 2014 DROUGHT

Cal EOC Incident - 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident - 2014 Drought

Local Emergency Proclamations:

A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 29 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

CAL OES MISSIONS

Closed Cal OES Missions

• 2015-LAW-20170, 11/24/15, 1800 Hours, San Francisco Police called the Marin County Sheriff's Office and requested a Human Remains Detection Dog Team. San Francisco Police have located the partial remains of a child at a residence in San Francisco and are planning to conduct an additional search on 11/25. Marin County assigned their HRD team and made arrangements for a second HRD dog team from CARDA. Cal OES Canine Coordinator advised as information only. Update 11/26/15, HRD Dog Teams searched the area on 11/25/15. The dog teams alerted on several locations, possibly indicating the presence of remains. San Francisco Police Investigators will be conducting additional follow up. Mission Closed

Ongoing Cal OES Missions

• 2015-LAW-20082, 11/19/15, 1147 Hours, Trinity County has requested Human Remains Detection (HRD) dogs to search a parcel of land in the Kettenpom area of Trinity County. The search will attempt to locate the remains of a subject missing since 10/11/15. Request referred to the Canine Coordinator for tasking and scheduling. Update 11/21/15: Search has been scheduled for 12/4-5/15. Mission Ongoing.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
